

# ANNIE KAMMERER BUTRUS

## INTERNAL: EXTERNAL, CONVERSATIONS

The *Internal: External, Conversations* series focuses on portraying conversations set within landscapes, both internal and external, real and imaginary, as explored through shape, line, and color. Punctuating lines, perspectival lines, and hatching lines transverse an environment that evokes nature. Branches, leaves, light weave around marks, dots, dashes that repeatedly punctuate, interrupt, and then mirror each other as they move across the vertical boundaries, and are directed by, the perspectival lines.
